Index

Index to Volume 49, 1995

Authors

Andres, F: see Bobo-Cummings, *VF. Summer, p. 41*

Bell, GW: see Peterson, JAL. *Fall, p.69*

Berkey, DS: see Folsom-Meek, SL. *Spring, p. 14*

Bobo-Cummings, VF: Patient compliance to a cardiac therapy program and selected exercise tolerance measures. *Summer, p. 41*

Boswell, BB: Time-distance gait parameters of children with spastic cerebral palsy. *Winter, p. 88*

Butterfield, SA: see Martens, D. *Winter, p. 106*

Davis, R: see Boswell, BB. *Winter, p. 88*

Deener, TM: Effects of social reinforcement and self-recording on exercise duration in middle school students with moderate mental retardation. *Spring, p. 28*

Drowatzky, JN: Ethics in research. *Fall, p. 72*

Drowatzky, JN: see Bobo-Cummings, VF. *Summer, p. 41*

Edwards, BG: Hamstring muscle torque in paraplegic subjects using functional neuromuscular stimulation (abstract). *Fall, p. 83*

Edwards, BG: Kinesiotherapy survey and program assessment: Norfolk State University. *Summer, p. 47*

Fagan, W: Locus of control of quad rugby players and able-bodied men. *Summer, p. 53*

French, R: see Fagan, W. *Summer, p.53*

Folsom-Meek, SL: Use of a changing-consistency board to evaluate the asymmetric tonic neck reflex and balance performance of children with and without learning disabilities. *Spring, p. 14*

Gupa, SC: see Ponichtera-Mulcare, JA. *Spring, p. 4*

Glaser, RM: see Ponichtera-Mulcare, JA. *Spring p. 4*

Glaser, RM: see Rice, HB. *Spring, p. 21*

Horvat, M: see Deener, TM. *Spring, p. 28*

Kobetic, R: see Edwards, BG. *Fall, p. 83*

Lehnhard, RA: see Martens, D. *Winter, p. 106*

MacFarlane, PA: Gait analysis: a cost and time efficient video method for use in the clinic or classroom. *Winter, p. 99*

Marsolais, EB: see Edwards, BG. *Fall, p. 83*

Martens, D: A kinematic analysis of a static balance task by children who are deaf. *Winter, p. 106*

Mathews, T: see Ponichtera-Mulcare, JA. *Spring, p. 4*

Meyer, RA: see Folsom-Meek, SL. *Spring, p. 14*

Nielsen, DH: see Macfarlane, PA. *Winter, p.99*

Peterson, JAL: aquatic exercise for individuals with multiple sclerosis. *Fall, p. 69*

Ponichtera-Mulcare, JA: Maximal aerobic exercise of individuals with multiple sclerosis using three modes of ergometry. *Spring, p. 4*

Ponichtera-Mulcare, JA: see Rice, HB. *Spring, p. 21*

Rice, HB: Nutrition and the spinal cord injured individual. *Spring, p. 21*

Rimmer, JH: see Stidwell, HF. *Summer, p. 58*

Sherrill, C: see Fagan, W. *Summer p. 53*

Stavrakas, P: see Boswell, BB. *Winter, p. 88*

Stidwell, HF: Measurement of physical self-efficacy in an elderly population. *Summer, p. 59*

Subjects

Aerobic Exercise
maximal of individuals with multiple sclerosis; *Spring, p. 4*

Aquatic Exercise
for individuals with multiple sclerosis; *Fall, p. 69*

Balance
using changing-consistency board to evaluate in children with learning disabilities; *Spring, p. 14*

Cardiac Therapy Program
patient compliance and selected exercise tolerance measures; *Summer, p.41*

Cerebral Palsy
time-distance gait parameters of; *Winter, p. 88*

Compliance
of patients to cardiac therapy program; *Summer, p. 41*

Deaf
kinematic analysis of balance in; *Winter, p. 106*

Elderly
measurement of physical self-efficacy in; *Summer, p. 58*

Ethics
in research; *Fall, p. 72*

Gait
time-distance parameters in children with cerebral palsy; *Winter,* p. 88
analysis using video method in clinic or classroom; *Winter, p. 99*

Kinematic Analysis
of static balance by deaf children; *Winter, p. 106*

Locus of Control
of quad rugby players and able-bodied men; *Summer, p. 53*

Multiple Sclerosis
maximal aerobic exercise of, *Spring, p. 4*
aquatic exercise for; *Fall, p. 69*

Muscle Torque
in hamstrings of paraplegic subjects using neuromuscular stimulation; *Fall, p.83*

Neuromuscular Stimulation
hamstring muscle torque in paraplegic using; *Fall, p. 83*

Nutrition
and spinal cord injury; *Spring, p. 21*

Paraplegic Subjects
hamstring muscle torque using functional neuromuscular stimulation; *Fall, p. 83*

Program Assessment
kinesiotherapy survey and assessment; *Summer, p. 47*

Research
ethics in; *Fall, p. 72*

Self-efficacy
measurement of in an elderly population; *Summer, p. 58*

Social Reinforcement
and self-recording on exercise duration; *Spring, p. 28*

Video
analysis of gait in clinic or classroom; *Winter, p. 99*
